

Featured Case Studies

Business growth, performance marketing, brand building & digital transformation

5	130%	623K+	831K+
Featured Clients	Sales Growth	Vapour's Views	Fiona Views

A selection of the clients and outcomes that best demonstrate how Klient Boost approaches measurable growth.

Featured Client Portfolio

These are the highlighted case studies selected to demonstrate different Klient Boost capabilities. The broader client portfolio spans additional sectors and services.

Performance & Acquisition

Turning marketing into measurable business outcomes.

- Fiona Beauty Academy — student acquisition
- Sugar Art Studio — admissions & awareness
- Nandan Sweets & Snacks — sales growth

Brand & Social Growth

Building attention, audience and digital presence.

- Vapour's — pre-launch brand building
- Sugar Art Studio — audience expansion
- Fiona Beauty Academy — local reach

Website & Digital Transformation

Simplifying digital infrastructure and customer journeys.

- EARMACS — unified website platform
- Booking + product purchase + product display
- Centralized domain / SSL management

Selected service categories

SERVICE CATEGORY	FEATURED CLIENTS	PRIMARY BUSINESS OUTCOME
Performance Marketing	Fiona Beauty Academy • Sugar Art Studio	Student enquiries & admissions
Social Media & Brand Building	Vapour's • Sugar Art Studio	Reach, awareness & audience growth
Sales & Growth Marketing	Nandan Sweets & Snacks	Average daily sales growth
Website Development	EARMACS	Simplified infrastructure & unified customer journey

How to read these case studies: We distinguish between direct business metrics (such as sales), marketing metrics (such as reach/views), and qualitative outcomes (such as operational simplification). This keeps the portfolio credible and avoids overstating causation.

02 / SALES & GROWTH MARKETING

Nandan Sweets & Snacks

A restaurant growth story built around campaigns, collaborations, seasonal marketing and sustained local visibility.

₹50K	₹75K	₹1.15L	+130%
Average daily sales at start	Average daily sales after 4 months	Average daily sales after 1 year	Increase vs. starting point

Growth calculation: ₹50,000/day → ₹115,000/day = ₹65,000/day increase, or 130% growth over the starting average. This is presented as growth during the marketing partnership rather than attributing every rupee of sales growth solely to marketing.

THE CHALLENGE

When Klient Boost started, the restaurant was averaging approximately ₹50,000 in daily sales. The objective was to strengthen local demand and build a repeatable marketing engine.

WHAT WE EXECUTED

Multiple campaigns, media collaborations, influencer marketing, seasonal and festive campaigns, promotional content and ongoing brand visibility initiatives.

BUSINESS EXPANSION

3 outlets + Nandan Inn — The brand has continued expanding beyond the initial restaurant operation. The case study demonstrates the role of sustained marketing support within a wider business-growth journey.

03 / WEBSITE DEVELOPMENT

EARMACS

A website transformation focused on simplifying digital infrastructure and bringing multiple customer journeys under one roof.

THE CHALLENGE

EARMACS was working with a multi-domain setup. Managing multiple domains, SSL certificates and hosting created recurring operational complexity. The existing layout also needed a clearer, more usable structure.

THE SOLUTION

We created a one-roof website solution that brings **booking, product display and product purchase** into a unified platform. The implementation also consolidated the domain and SSL requirements so the client could avoid the previous multi-domain management burden.

OUTCOME

One unified digital platform. The project improved the customer journey while reducing the operational complexity associated with multiple domains, SSL and hosting. The client was satisfied with the resulting system.

04 / SOCIAL MEDIA & BRAND BUILDING

Vapour's

Building a new café / lounge brand from the construction phase through consistent social media, content and performance marketing.

623K+

Total content views

264K+

People reached

14.8K

Content interactions

79.6%

Instagram views from non-followers

Performance window shown in the supplied analytics: 1 January – 21 August. Instagram recorded 623,452 total views in the screenshot; 362,531 were organic and 260,921 came from ads. Instagram views from non-followers were 496,463.

THE STRATEGY

We began marketing while the business was still in its construction / pre-launch stage, using social content, brand communication, campaigns and paid distribution to build recognition and anticipation before relying on the physical outlet alone.

Bundeli Kothi

From a failing website to a reliable direct-booking enquiry system.

1	1	Email	0
Custom website rebuild	Custom booking engine	Automated enquiry delivery	Payment gateway required

THE CHALLENGE

Bundeli Kothi previously lacked a reliable website infrastructure. The existing website experienced frequent errors, pages failed to load, and the site was often unavailable. The owner also did not want an online payment gateway; they wanted booking enquiries delivered directly to email. With a significant share of customers coming from international markets, reliability and a simple enquiry journey were especially important.

OUR SOLUTION

Klient Boost rebuilt the website on a custom basis and created a custom booking engine around the property's actual operating model. Guests can submit booking requirements without a payment gateway, while the enquiry details are automatically delivered to the owner's email.

Frequent website errors Pages not loading Frequent downtime No suitable booking workflow	Custom website rebuild Custom booking engine Email automation Business-specific architecture	Reliable website Booking enquiries Automatic email notifications Owner focuses on operations

THE BUSINESS IMPACT

The project removed a major technical and operational burden. Instead of repeatedly dealing with website errors and downtime, the owner now has a smoother digital system that captures booking enquiries while they focus on running the hospitality business.

CUSTOMER JOURNEY

Discover → Explore → Enquire → Automated Email → Owner Confirms Booking

Website category: Website Development • Custom Booking Systems • Hospitality Technology • Website Management

05 / ADMISSIONS & AWARENESS

Sugar Art Studio

Growing the digital presence of a cake-baking and culinary arts academy in Pasighat and supporting student acquisition.

518K+

Total views

105K+

People reached

12K

Content interactions

76.3%

Instagram views from non-followers

Performance window shown in the supplied analytics: 1 March – 21 August. Instagram recorded 476,272 views; 295,578 were organic and 180,694 came from ads. Non-follower views were 363,277.

THE BUSINESS IMPACT

The marketing helped expand reach beyond the existing audience and contributed to increased course enquiries and admissions after marketing began. The available evidence supports the audience-growth story; an exact admissions count was not provided, so the PDF does not invent one.

06 / PERFORMANCE MARKETING

Fiona Beauty Academy

A local student-acquisition campaign focused on reaching prospective beauty and cosmetology students across Tinsukia and nearby areas.

831K+

Total views

415K+

People reached

5.6K

Content interactions

97.6%

Instagram views from non-followers

Performance window shown in the supplied analytics: 1 January – 21 August. Instagram recorded 816,631 views; 778,415 came from ads and 38,216 organically. Non-follower views were 797,011.

THE BUSINESS IMPACT

The campaign was designed around local student acquisition rather than vanity metrics. Klient Boost used targeted performance marketing to reach prospective students in Tinsukia and nearby areas, and the client reported a strong increase in student enquiries and admissions after marketing began.

07 / CROSS-CLIENT IMPACT

What These Case Studies Demonstrate

Different businesses require different growth levers. The featured portfolio shows four distinct outcome types.

₹50K → ₹1.15L Nandan average daily sales	623K+ Vapour's views	518K+ Sugar Art Studio views	831K+ Fiona Beauty Academy views
--	--	--	--

OUTCOME SNAPSHOT

OUTCOME TYPE	CLIENT	EVIDENCE
Revenue / Sales Growth	Nandan Sweets & Snacks	₹50K/day → ₹1.15L/day (+130%)
Digital Infrastructure	EARMACS	Multi-domain setup → unified platform
Brand / Audience Growth	Vapour's	623K+ views • 264K+ reach
Admissions / Awareness	Sugar Art Studio	518K+ views • 105K+ reach • increased admissions
Performance / Student Acquisition	Fiona Beauty Academy	831K+ views • 415K+ reach • increased admissions

Portfolio principle: The strongest Klient Boost stories are not all measured by the same metric. We match the measurement to the business objective—sales for restaurants, admissions for academies, reach for new brands, and operational simplicity for website projects.

THE KLIENT BOOST APPROACH

We don't build campaigns for the sake of campaigns.

We build marketing systems around the outcome the business actually needs.

BRAND	PERFORMANC E	DIGITAL	GROWTH
Positioning & content	Targeting & acquisition	Websites & infrastructure	Sales, enquiries & admissions
